

SIGNS TO IDENTIFY VICTIMS OF TRAFFICKING

Ask yourself these questions

IS THE PERSON BEING CONTROLLED?

Are they overly fearful, paranoid, or submissive?

Do they avoid eye contact?

Are they free to contact friends and family or allowed in public without supervision?

ARE THERE INDICATORS OF ABUSE?

Do you see signs of physical, sexual, or psychological abuse?

Do you see signs of branding, such as tattoos?

Does the person have health issues not being addressed or being denied life necessities?

DOES SOMETHING NOT SEEM RIGHT?

Does the person have adequate identification or a steady, known address?

Does a minor appear to be in a relationship with a much older person?

Is someone or their family being threatened?
